LCPS AT Apple iOS Setup Overview

1

Create Hotmail Account - *Prior to placing device*

- Unique for each device
- Use exact code on device without *LCPS* or spaces (e.g. **aipod4**@hotmail.com)
- Password for all devices is on VISION. **Do not share with teacher/student!**

2

Create iTunes Account - *Prior to placing device*

- Use Hotmail email address
- Create password that the teacher is given. **Do not share with parent/student!**
- Password should be unique for each placed device
- Store password in AT Tracker

3

Enable Restrictions - *Prior to placing device*

- See VISION site for information about setting up restriction codes
- Turn OFF Ping, Installing Apps, Deleting Apps
- Disable Changes to Location or Accounts
- Choose additional restrictions as appropriate

4

Enable Find my iPad - *Prior to placing device*

- Directions & Support - http://bit.ly/fidbbo
- Use associated device Hotmail account to setup this function
- Send a test message to ensure proper setup

5

Apps - *Prior to placing device*

- If App is provided by LCPS AT, use provided authorization code from Mark (from Volume Purchase Program) to redeem App within App store
- If teacher desires additional free apps, the device iTunes account may be used.
- Additional personal accounts may be used by the teacher/parent/student to place other instructional Apps on the device (with teacher enabling installation of Apps in restrictions).

6

Syncing/Backing Up - *At school site on iTunes sync system*

- Initially completed by LCPS AT Trainer
- All future syncing/backups completed by the teacher through the school device manager and performed once per month (at minimum) or after any major changes
- Some data within Apps (i.e. Proloquo2Go) is NOT backed up through the backup process. Enable file sharing within iTunes to accomplish this.
